**DETAILED ACTION**

1. Claims 1-11 were examined.

***Terminal Disclaimer***

2. The terminal disclaimer filed on 1/3/06 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of 6,892,366 has been reviewed and is accepted. The terminal disclaimer has been recorded.

***Allowable Subject Matter***

3. Claims 1-11 are allowable.
4. The following is an examiner's statement of reasons for allowance:  
While Neal-R.M., "Monty Carlo Implementation of Gaussian Process Models for Bayesian Regression and Classification" teaches (claim 1) Bayesian interface implemented with a Hybrid Monty Carlo method and Singh et al., (US Patent 5,687,020) teaches electrical characteristics for an extraction, none of these references, taken either alone or in combination, with the prior art of record disclose

*(claim 1) "a method of constructing... a sub problem, comprising: identifying a set of physical measurements that define said sub problem; selecting a set of training cases for said specific sub problem, each of said training cases including an associated set of said physical measurements; solving said specific sub problem for each of said training*

*cases using said associated set of physical measurements as an input to an accurate physics based model to generate an associated output; training a machine-learning model, “*

in combination with the remaining elements and features of the claimed invention. It is for these reasons that the applicants' invention defines over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance”.

#### ***Examiner's Amendment***

3 An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The amendments are as follows:

Specification: pg. 13, line 25, after “components” insert -- . -- .
